

Floor column 160cm centre screen

052.7360 Discontinued | Floor column 160cm centre screen for touch screen max. 135 kg

This is a floor column for (touch-) flat screens with a VESA mount integrated. The column requires to be installed close to a wall, after which it can be fastened with the wall mount. Due to this the weight is strained on the floor. Behind the mounting function we reserved space to position a mini-PC or thin client, that can be locked by a lid. This solution can also be used as five-surface solution.

**This product is "End of Life" and will no longer be produced.
It can be supplied as long as stock lasts.**
