

PRODUCT LEAFLET

Floor stand, fixed installation

062.4425 Installation Series | Stand for flat panels max. 85 kg

The Installation Series is all about flat panel mounting with maximum user-friendliness. All stands and trolleys standard come with a Panel Integrator. With this you may integrate up to four standard size power sockets, audiovisual control panels, USB ports or power outlets into the Installation Series column at the desired height. Do you need more connections within easy reach? No problem, just add an additional panel integrator which is available as an accessory as well.

Cables are hidden within the column's dedicated cable compartment. This is covered with a cover strip allowing easy access and establishing a neat and tidy finish.

The Installation Series offers a solution for every room thanks to the wide variety of installation options: freestanding, on wheels, fixed to floor / wall / ceiling and in a videoconferencing set-up.

The 170x140 mounting head can easily be slid up and down the column and securely fixated in the desired position. Making integration for any person, small or tall, easy as the monitor can be adjusted to accommodate the best personal working height.

Combined with one of our universal wall mounts the Installation Series fits any screen.

Benefits at a glance: All connection within easy reach Invisible cabling A solution for every room Adjustable working height Fits any screen Easy installation TÜV-5 certified
