

Coupling set

172.0017 EOL | VideoWall - Coupling set for horizontal aluminium profiles

This set is especially developed for our VideoWall floor solutions. The horizontal profiles may be very long for large VideoWalls, this set allows you to receive the profiles in 2 parts and couple them on location. This makes transport more compact and manoeuvring through buildings easier.

**This product is "End of Life" and will no longer be produced.
It can be supplied as long as stock lasts.**
