

## BalanceBox 650

### **BBW.0650-121 BalanceBox 650-130 for touch screen 62 - 121 kg**

The demand for mounting solutions that allow a touchscreen to be adjusted quickly and repeatedly increases. Touchscreens are getting bigger, which means that users can not reach the upper part and therefore can not operate it.

The BalanceBox lets you quickly and effortlessly move a touchscreen to the right work and presentation height, regardless your height, or if you are in a (wheel)chair. Optimal accessibility and therefore a continuously pleasant and especially healthy posture when writing and drawing contribute to a perfect presentation.

#### **How does the BalanceBox work?**

The BalanceBox is a mounting system with a built-in spring mechanism that balances heavy weights like a touchscreen, so that it appears to be "weightless". Manually moving up and down becomes child's play.

#### **Features and benefits BalanceBox 650**

|                       |                                  |                              |   |
|-----------------------|----------------------------------|------------------------------|---|
| <b>Ergonomics</b>     | Effortless high-low adjustment   | <b>Operating reliability</b> | Tested to 60.000 cycles                                 |
| <b>Design</b>         | Innovative stainless steel cover | <b>Mounting</b>              | Easy and safe mounting, different surfaces < 30 minutes |
| <b>Functionality</b>  | Intuitive up and down movement   | <b>Logistics</b>             | Compact packaging, relatively low transport costs       |
