

BalanceBox 650

BBW.0650-64 BalanceBox 650-80 for touch screen 29 - 64 kg

The demand for mounting solutions that allow a touchscreen to be adjusted quickly and repeatedly increases. Touchscreens are getting bigger, which means that users can not reach the upper part and therefore can not operate it. The BalanceBox lets you quickly and effortlessly move a touchscreen to the right work and presentation height, regardless your height, or if you are in a (wheel)chair. Optimal accessibility and therefore a continuously pleasant and especially healthy posture when writing and drawing contribute to a perfect presentation.

How does the BalanceBox work?

The BalanceBox is a mounting system with a built-in spring mechanism that balances heavy weights like a touchscreen, so that it appears to be "weightless". Manually moving up and down becomes child's play.

Features and benefits BalanceBox 650

Ergonomics	Effortless high-low adjustment	Operating reliability	Tested to 60.000 cycles
Design	Innovative stainless steel cover	Mounting	Easy and safe mounting, different surfaces < 30 minutes
Functionality	Intuitive up and down movement	Logistics	Compact packaging, relatively low transport costs
Safety	UL, TÜV and CE-certified	Maintenance	Maintenance-free
Manual control	No motor, no electricity needed		

BalanceBox 650

Features:

Weight: 80.60 kg

Colour: Black, Grey

Maximum load: 29 - 64 kg

Screen position: Landscape

Inch range: max. 98 inch

Height adjustment: Manual 650 mm

Bracket/interface: Included

Type bracket/interface: Universal

Range bracket/interface: max. 800 x 670

Other information: It is important that the minimum load of 29 kg is met.

Colour: BalanceBox grey, VESA bracket black.
